OBJECTIVE

Detail-oriented Computer Science student with strong foundation in Data Structures & Algorithms, software development, and problem solving. Skilled in designing and implementing robust code modules using Java, Python, and web technologies. Seeking a Software Developer internship to contribute to clean, efficient application development, collaborate with development teams, and grow in a client-driven, team-oriented environment.

TECHNICAL SKILLS

Languages: Java, Python, SQL (MySQL), HTML5, CSS3, JS

Frameworks: Django (MVT Framework)

Databases: MySQL

Developer Tools: Git, GitHub, VS Code

Core Competencies: Data Structures & Algorithms, Problem Solving, Responsive Web Design, Software Development Life Cycle (SDLC)

EDUCATION

Bachelor of Technology in Computer Science

2023 – 2027 (Expected)

Babu Banarasi Das Northern India Institute of Technology, Lucknow

Intermediate (Class XII)

2023

Daffodils Convent Inter College, UPMSP, Uttar Pradesh

High School (Class X)

2021

Daffodils Convent Inter College, UPMSP, Uttar Pradesh

TECHNICAL PROJECTS

Secure Video Authenticator | Python | Django | MySQL [GitHub](#)

- Designed and implemented a secure media platform using the Django MVT framework, applying clean code principles and structured software development practices.
- Built robust authentication and access control modules for video content with end-to-end user workflow design, ensuring secure login and session management.
- Designed video upload and retrieval workflows with persistent database storage in SQLite3; structured codebase for extensibility and future enhancements.
- Clarified feature requirements, designed algorithms and data flow before implementation to reduce gaps and improve overall code quality.

Personal Portfolio Website | HTML5 | CSS3 | JavaScript | GitHub Pages [Live Demo](#) [GitHub](#)

- Designed and developed a fully responsive personal portfolio website using HTML5, CSS3, and JavaScript, adhering to web standards and mobile-first design principles.
- Implemented clean, efficient UI with optimized layout and performance for fast loading and smooth user experience across devices.
- Deployed and version-controlled the project using Git and GitHub Pages, following a structured software deployment and tracking workflow.
- Integrated project showcases, GitHub repositories, and contact information — demonstrating full project lifecycle ownership from design to deployment.

ACHIEVEMENTS & LEADERSHIP

- Solved 150+ problems on LeetCode and CodeChef, demonstrating strong Data Structures & Algorithms proficiency and analytical problem-solving skills.
- Served as Technical Coordinator for College Tech Fest — managed and coordinated 15 volunteers, demonstrating teamwork, ownership, and leadership under pressure.

CERTIFICATIONS

- Tata – Gen AI Powered Data Analytics Job Simulation
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
