PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, 2027) with hands-on experience testing and building Java and Spring Boot REST APIs. Wrote automated unit and controller-level API tests (JUnit 5, Mockito, MockMvc) with 82% JaCoCo instruction coverage, and benchmarked API performance with Apache JMeter. Strong in debugging, problem-solving (150 LeetCode problems), and clear communication. Seeking a fresher SDET role to build reliable test automation and improve software quality.

TECHNICAL SKILLS

Test Automation & Tools: JUnit 5, Mockito, MockMvc, JaCoCo, Apache JMeter, Postman
Testing Types: Unit, API/Controller-layer, Performance/Load, Code-coverage analysis
Programming: Java, SQL
Backend & APIs: Spring Boot, RESTful APIs, Spring Data JPA, Hibernate, MySQL
Tools: Git, GitHub, Maven, IntelliJ IDEA
Core: OOP, Data Structures and Algorithms, Debugging, Problem Solving
Frontend (familiarity): React, Vite, Axios

TECHNICAL PROJECTS

URL Shotgun | URL Shortener with Click Analytics and Automated Test Suite
Java, Spring Boot, JUnit 5, Mockito, MockMvc, JaCoCo, JMeter, MySQL, React

- Built an automated test suite with JUnit 5 and Mockito (service layer) and MockMvc (controller layer), reaching 82% instruction coverage tracked with JaCoCo.
- Benchmarked REST APIs with Apache JMeter: 0% errors and 15 ms average response time over 50 samples.
- Found and removed a redundant existence-check query in URL creation through performance analysis, cutting average latency to 13 ms and response-time variance by ~39% over 150 samples.
- Validated error handling and request validation, covering structured HTTP 400 and 404 responses.
- Designed and verified REST APIs for URL creation, management, and click analytics (IP, User-Agent, referrer, timestamp, click count), including HTTP 302 redirection.
- Integrated a React (Vite) frontend with the APIs via Axios and tested the endpoints with Postman.
- Deployed the full stack to production: React frontend on Vercel, Spring Boot backend on Render, and MySQL database on Aiven, configuring production environment variables and cloud connectivity.

EDUCATION

B.Tech in Computer Science, Babu Banarasi Das Northern India Institute of Technology, Lucknow — 2023 – 2027 (Expected)
Intermediate (Class XII), UP Board, Daffodils Convent Inter College — 2023
High School (Class X), UP Board, Daffodils Convent Inter College — 2021

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations
- Tata – Gen AI Powered Data Analytics Job Simulation

ACHIEVEMENTS & LEADERSHIP

- Solved 150 LeetCode problems across data structures and algorithms.
- Technical Coordinator for College Tech Fest, leading a team of 15 volunteers and coordinating across teams (communication and collaboration).
